

# VITALY NUDELMAN

DEVOPS ENGINEER

## CONTACTS

0546487047

v.nudelman@gmail.com

Haifa, Israel

## SKILLS

- Scripting: BASH, Python
- K8s and OpenShift Container orchestration
- Writing Helm charts (with different strategies)
- Creating and maintaining CI/CD pipelines (Jenkins)
- Docker Runtime Engines (Docker, Podman)
- Provisioning and maintaining Kubernetes clusters (RKE, Rancher, OCP)
- Provisioning and managing private repositories (Jfrog, Harbor, Sonatype Nexus)
- Provisioning Monitoring solution with Prometheus Grafana, Datadog
- Cloud services: AWS, Linode, DigitalOcean, Oracle Cloud

## ABOUT ME

I am a highly motivated and passionate individual with a technical background, specializing in characterizing and implementing cloud and DevOps solutions. I focus on creating and optimizing CI/CD pipelines and writing Helm charts for Kubernetes applications. I am currently seeking my next role as a DevOps engineer to utilize my skills and contribute to making our world a better place.

## WORK EXPERIENCE

**DevOps Engineer, Commit, Petah-Tikva**  
Aug 2023 - Present

In my current role, I specialize in characterizing and implementing cloud and DevOps solutions, with a strong focus on creating and optimizing CI/CD pipelines and writing Helm charts for Kubernetes applications. I write engineering documents and detail complex cloud configurations, emphasizing automation, monitoring, and performance. Additionally, I manage and upgrade customer systems, implement diverse projects, and provide post-establishment support, while assisting development and integration teams.

**Integration Specialist, Israeli Aerospace Industries**  
Nov 2021 - Feb 2023

Configured and maintained AIX Unix servers, airborne computers and electronics systems.

## EDUCATION

- Electronics Practical Engineer, Airforce College, Haifa  
2017

## LANGUAGES

English

Russian

Hebrew

Hindi
